

## About us

Established in 1992, The CEO Institute is dedicated to providing the pathways to excellence in business leadership through its management development programs and online learning resources. The two key programs are:

- The CEO Syndicate: our flagship program exclusively for Chief Executives
- Transitional Leadership™: for Senior Executives taking the journey to C-level

The CEO Institute also recognises the importance of keeping Senior Executives connected and maintaining an ongoing level of experiential learning, in the critical time between departing from one role and commencing a new role.

To this end, the **CEOs On The Move™** program has been specifically designed to offer Senior Executives with an appropriate peer support network and experiential learning environment to keep them "job ready". Of critical importance, in achieving a successful outcome, is keeping members buoyant and positive, as they journey towards finding their next career opportunity.

At The CEO Institute, we understand the difficulties facing out-of-work Senior Executives, and we know the importance of being properly prepared when applying for, and presenting at interviews - you *don't* have to go it alone!

## CEOs On The Move™ program

Senior Executives who are out-of-work, and wanting to move into a C-level or senior management position are invited to join the **CEOs On The Move™** program.
